SAHIL TOMAR

FOUNDER'S OFFICE · STRATEGY & OPS · AI PRODUCT BUILDER

Delhi NCR, India · +91 9050977919 · **sahiltomar2430@gmail.com** · **sahiltomar.pro** · **linkedin.com/in/me-sahiltomar** · **github.com/me-sahiltomar** · **cal.com/me-sahiltomar**

EXECUTIVE SUMMARY

AVAILABLE IMMEDIATELY · FULL-TIME (DELHI NCR / REMOTE)

Computer Science graduate (2026) and startup generalist operating across strategy, operational design, and applied AI systems. Founder of **CevonX** (applied software studio) and Co-founder of **FinStation** (financial intelligence venture). Experienced leading 12-member cross-functional teams, executing enterprise root cause analysis across 9 departments, conducting regulatory compliance audits, and shipping full-stack AI applications with deterministic validation. Available immediately for full-time Founder's Office or Operations Lead roles.

OPERATIONAL & FOUNDER EXPERIENCE

VENTURE BUILDING · CROSS-FUNCTIONAL EXECUTION

Founder & Product Builder | CevonX (cevonx.com)

Sept 2026 – Present | Delhi NCR

- **Venture Architecture:** Designed two-engine company model uniting an owned software product studio (3 live products) with a commercial AI solutions layer, operating under rapid 7-day build sprints and strict proof-of-work governance.
- **Software Delivery:** Built and shipped 3 production platforms: *LedgerLens* (AI vision document validation), *ProductScout* (market signal intelligence), and *PrioX* (founder priority inbox) using Next.js 14, FastAPI, Supabase, and Gemini APIs.
- **Systems Infrastructure:** Architected unified Supabase (PostgreSQL 17.6) database with strict multi-tenant Row-Level Security, schema namespaces, and Dockerized microservices with Prometheus metrics and Grafana observability.

Co-Founder | FinStation — AI Financial Intelligence

Jun 2026 – Oct 2026 | Delhi NCR

- **0-to-1 Venture Direction:** Structured product requirements, financial API integration feasibility, and unit economics; onboarded and governed a **~35-user controlled beta cohort** with staged retention checkpoints.
- **Recruitment & Evaluations:** Screened and interviewed **15–20+ candidates** using practical trial assignments; authored candidate evaluation rubrics, task briefs, and onboarding workflows for intern hires.
- **Regulatory Forensics:** Executed compliance boundary audit under SEBI (RA/IA) regulations; proactively paused commercial licensing to prevent statutory liability and preserve runway for non-advisory workflow software.

Team Lead (Project Management & Operations Sprints) | Excelerate

Jun 2026 – Oct 2026 | Remote (Cross-Border)

- **ProjectUp (12-Member Lead):** Diagnosed software adoption failure across **150 employees and 9 departments**. Delivered Root Cause Analysis (Ishikawa/5-Whys), risk register, and a 3-week pilot (10–15 users) with quantitative Go/No-Go exit gates.
- **AI Connect 2026 (Programme Delivery):** Engineered a 5-month Work Breakdown Structure (140+ work packages), critical path matrix, and an activity-based **$20,000 budget model** for a 10-day global virtual summit.
- **Pepagora B2B Marketplace:** Benchmarked onboarding across IndiaMART, Alibaba, and TradeIndia; designed a tiered verification model balancing regulatory compliance with low supplier drop-off.

Business Analyst Intern | CountryEdu Private Limited

Oct 2025 – Dec 2025 | Gurugram

- Analyzed business workflows and operational bottlenecks; authored functional requirement documents (FRDs) connecting commercial objectives directly to software engineering sprints.

SHIPPED SOFTWARE & APPLIED AI SYSTEMS

PRODUCTION PROOF-OF-WORK

LedgerLens — AI Vision Financial Document Intelligence — **ledgerlens.cevonx.com · GitHub ↗**

Document validation platform extracting and cross-verifying financial records from receipts/invoices. Built with FastAPI (Python 3.11), Next.js 14 App Router, dynamic Pydantic v2 schemas, multi-provider vision (OpenAI, Gemini, Groq), Docker, and Prometheus/Grafana.

`Tech: FastAPI · Python 3.11 · Next.js 14 · Pydantic v2 · Multi-Provider Vision · Docker · Prometheus · Supabase`

ProductScout — Market Opportunity & Signal Intelligence Engine — **productscout.cevonx.com**

Evidence-first research system harvesting developer discussions into a structured 20-field opportunity model separating direct user proof from AI inference. Built with Next.js 14, Supabase (PostgreSQL 17.6 + RLS), and Gemini/OpenAI pipelines.

`Tech: Next.js 14 · Supabase (PostgreSQL 17.6 + RLS) · Server Actions · OpenAI & Gemini APIs · Tailwind CSS`

PrioX — Founder Operational Decision & Signal Triage Inbox — **priox.cevonx.com**

Founder decision-support system analyzing inbound startup signals across customer risk, sales blockers, and product friction via a 4-stage pipeline (Understand → Detect → Prioritize → Recommend) with pre-loaded demo scenarios.

`Tech: Next.js 14 App Router · TypeScript · Google Gemini API (Serverless) · Tailwind CSS`

CORE SKILLS & TOOLING

OPERATIONAL & TECHNICAL ARSENAL

Founder's Office & Ops: Cross-Functional Execution, Root Cause Analysis (RCA/5-Whys), Workflow Mapping, Pilot Design & Go/No-Go Gates, Risk Registers, Work Breakdown Structure (WBS), Stakeholder Management, Candidate Hiring Rubrics.

Product & Strategy: Problem Discovery, PRD Authoring, Competitor Benchmarking, User Journey Mapping, Controlled Beta Governance, Unit Economics, GTM Sprints, Pricing Analysis, Qualitative & Quantitative User Research.

AI & Software Engineering: Python, FastAPI, Next.js 14/15, TypeScript, PostgreSQL, Supabase (RLS), Pydantic v2, REST APIs, Docker, Prometheus & Grafana, n8n Automation, Multimodal Vision, LLM Hot-Swapping, Git/GitHub.

EDUCATION & VERIFIED CREDENTIALS

ACADEMIC & PROFESSIONAL RECOGNITION

B.Tech, Computer Science & Engineering — 2022 – 2026
DCRUST (Deenbandhu Chhotu Ram University of Science and Technology)

AI Engineering (New Age Tools & Tech) — 2025 – 2026
iHUB DivyaSampark, IIT Roorkee

Verified Certifications:

- IBM Generative AI Engineering Specialization
- Google Data Analytics Professional Certificate
- McKinsey Forward Program (Leadership & Strategy)
- Product Discovery Certification (Pendo.io)
- Quantium Data Analytics Job Simulation
