SAHIL TOMAR

BUSINESS OPERATIONS | AI & AUTOMATION | DATA-DRIVEN OPERATIONS

Sonipat, Haryana, India • +91 9050977919 • sahiltomar2430@gmail.com • linkedin.com/in/sahil2430

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with experience in business operations, AI-enabled workflows, data analysis, process improvement, requirements gathering, and cross-functional execution. Co-founder of an early-stage AI financial-intelligence startup, with hands-on ownership across product coordination, beta strategy, research, hiring, pricing, and GTM. Built an AI document-intelligence workflow using Python, APIs, LLMs, and human-in-the-loop validation.

RELEVANT EXPERIENCE

Co-Founder | FinStation — AI Financial Intelligence Startup Jun 2026 – Aug 2026

New Delhi

- Moved an AI-powered financial-intelligence platform from concept toward a live product and controlled beta across operations, product coordination, research, hiring, GTM, and company building.
- Translated user and business problems into product requirements, workflow improvements, priorities, and implementation decisions with product and technical contributors.
- Designed a staged beta rollout framework covering product stability, user feedback, retention, feature quality, and infrastructure readiness.
- Supported founding-team operations across role definition, candidate evaluation, work planning, pricing, communication, and early GTM.

Project Management Associate | Excelerate Jul 2026 – Aug 2026

- Led a **12-member team across 9 departments** to diagnose adoption gaps and translate findings into an implementation-ready improvement strategy.
- Conducted root-cause analysis across people, process, communication, accountability, and reinforcement; developed the roadmap, stakeholder plan, risk register, and monitoring framework.
- Designed a **3-week pilot** with KPIs, success thresholds, feedback collection, and Go/No-Go decision criteria.

Business Analyst Intern | CountryEdu Private Limited Oct 2025 – Dec 2025

Gurugram

- Supported requirements gathering, business-data analysis, workflow documentation, and business process optimization.
- Structured stakeholder requirements and translated business objectives into functional requirements and workflow improvements.
- Analyzed operational processes to identify inefficiencies and improvement opportunities.

AI, DATA & AUTOMATION PROJECTS

LedgerLens — AI Document Intelligence Platform 2025 – 2026

- Built an AI workflow for invoice and receipt extraction, structured data processing, and human-in-the-loop validation using Python, FastAPI, APIs, and GPT-4o Vision.

B2B Marketplace Onboarding Optimization | Pepagora

- Analyzed B2B onboarding through user research, data-quality requirements, competitor benchmarking, and workflow design to support activation and re-engagement.

EDUCATION

DCRUST 2022 – 2026

B.Tech, Computer Science & Engineering

iHUB DivyaSampark, IIT Roorkee 2025 – 2026

Program on New Age Tools & Technology — AI Engineering

SKILLS & CREDENTIALS

Business: Business Operations, Process Improvement, Workflow Analysis, Requirements Gathering, Root Cause Analysis, KPI Development, Competitive Intelligence, Project Planning, Risk Management, Pilot Design, Change Management, Stakeholder Coordination

Technical: Excel, Google Sheets, SQL, Python, Pandas, n8n, OpenAI APIs, Gemini APIs, Groq, AI Agents, RAG, FastAPI, REST APIs, PostgreSQL, SQLite, Pydantic, Streamlit, Git/GitHub, PowerPoint, Jira

Credentials: Google Data Analytics Professional Certificate • McKinsey Forward Program • Product Discovery Certification (Pendo)

Leadership: Team Lead for 3–6 member multidisciplinary teams across hackathons and competitive problem-solving initiatives, including Smart India Hackathon 2025.
