Sahil Tomar

PRODUCT MANAGEMENT • PRODUCT ENGINEERING • AI-ENABLED PRODUCTS

Sonipat, Haryana, India • +91 9050977919 • sahiltomar2430@gmail.com • linkedin.com/in/sahil2430

Product-focused Computer Science Engineering graduate experienced in translating user and business problems into product requirements, workflow concepts, MVP scope, feature priorities, and validation plans. Built AI-enabled products end-to-end and worked across research, prototyping, APIs, testing, beta planning, and cross-functional execution. Comfortable simplifying ambiguous problems into structured solutions in fast-moving startup environments.

EXPERIENCE

Co-Founder | FinStation — Early-Stage Startup Jun 2026 – Present | New Delhi

- Shaped product strategy for an AI-powered financial intelligence platform by defining target users, problem statements, value proposition, MVP scope, and research workflows for Indian investors.
- Translated investor needs into product requirements and feature priorities across AI research reports, financial analysis, watchlists, research workspaces, and earnings/news intelligence.
- Designed a staged beta rollout framework with cohort gates and validation criteria covering stability, user feedback, retention, feature quality, and infrastructure readiness.
- Coordinated with product and technical contributors to review builds, identify missing functionality, surface usability issues, and prioritize improvements; also supported positioning, pricing, GTM, and product messaging.

Business Analyst Intern | CountryEdu Private Limited Oct 2025 – Dec 2025 | Gurugram

- Gathered stakeholder requirements, documented workflows, analyzed operational processes, and translated business objectives into functional requirements and improvement opportunities.

Digital Strategy Associate | Excelerate Jul 2026 – Aug 2026

- Conducted audience, competitor, positioning, customer-journey, and content-gap research; synthesized findings into messaging and stakeholder-ready recommendations.

Project Management Associate | Excelerate Jul 2026 – Aug 2026

- Led a 12-member team across a 9-department adoption initiative; created a roadmap, KPI framework, pilot plan, risk approach, and Go/No-Go criteria.

PROJECTS & PRODUCT CASES

LedgerLens — AI Document Intelligence Platform 2025 – 2026

- Designed and built an AI document-intelligence product that converts unstructured invoices and receipts into structured data and human-review workflows.
- Implemented product and backend workflows with Python, FastAPI, REST APIs, SQLite, Pydantic, and Streamlit; integrated GPT-4o Vision for document extraction.
- Developed confidence-based human-review routing and product controls for image validation, moderation, PII redaction, watermarking, review states, and error handling.
- Worked across requirements, workflow design, technical feasibility, validation, testing, AI-provider integration, and observability.

Pepagora B2B Marketplace Onboarding 2026

- Mapped user personas and customer journeys; benchmarked competitors and identified UX gaps across activation, onboarding, and re-engagement.

SKILLS & CREDENTIALS

Product Management: Product Discovery, User Needs, MVP Scoping, Feature Prioritization, Product Strategy, Beta Rollouts, GTM, Requirements Gathering, PRDs / Functional Requirements, User Stories, Acceptance Criteria, Workflow Design, Product Validation, Success Metrics, Stakeholder Coordination, QA / Testing

Analytics & Research: Market Research, Competitor Analysis, User Personas, Customer Journey Mapping, UX Gap Analysis, Research Synthesis, KPI Definition, Funnel Thinking, SQL

Design & Prototyping: Figma, Wireframing, Prototyping, User Flows

Technical & AI: Python, FastAPI, REST APIs, SQLite, PostgreSQL, Pydantic, Streamlit, Git/GitHub, OpenAI APIs, GPT-4o Vision, RAG, AI Agents, n8n

Credentials: IBM Generative AI Engineering Specialization; Google Data Analytics Professional Certificate; McKinsey Forward Program; Product Discovery Certification (Pendo); Quantium Data Analytics Job Simulation

EDUCATION

DCRUST — B.Tech, Computer Science & Engineering 2022 – 2026

iHUB DivyaSampark, IIT Roorkee — Program on New Age Tools & Technology: AI Engineering 2025 – 2026
